To

Regional Director

Regional Office (CBSE),

Pattom, Thiruvananthapuram.

Sub : General Education – Kerala Flood Relief – Massive fund
collection from School students all over Kerala – reg

Ref : GO (RT) No. 320/18/Revenue Dated 3/9/2018.

Massive floods across Kerala have taken away a lot of lives and displaced lakhs of families. Flood waters have slowly receded in many areas, but we now enter the most difficult phase of recovery. It is appreciable that many NGOs and individuals are coming forward with donations to rebuild homes and schools in the affected area. In many places Our Schools were severely damaged and many students had to bear the brunt of the devastating flood by losing their learning materials including textbooks. The estimated cost of the loss is enormous and this is the appropriate time to stand together for a gracious cause. The students in Kerala are a vital force and their contributions in this regard would definitely be productive in respect of making additions to the chief Ministers relief fund. In

these circumstances we shall join our hands together on 11th of September 2018 for a one day fund collection exercise by the students in each school under the supervision of Head master/Principals and Class Teachers. In this connection Honorable Chief Minister of Kerala has issued a message to students to be read in the School Assembly on 10th September 2018. Please find the message of Honourable Chief Minister attached along with this letter and do read the same in the school assembly on 10th to disseminate the students about the importance and necessity of the philanthropic measures.

Students can contribute as many as they can and their individual contribution need be kept confidential. Hence I request all the Headmasters/Principals of all the Schools in the state to treat this venture as a unique one in order to support our efforts to rebuild a new Kerala.

I request to give necessary directions to all school heads and make this endeavour a grand success.
